

## Who We Are

The National Children's Cancer Society (NCCS) tirelessly and compassionately supports families making their way through the daunting world of childhood cancer. With over **thirty years** of experience serving more than **45,000 children**, NCCS has become a master navigator of this world, helping families get where they need to be – physically, financially and emotionally – to give them hope, and to give their children the **best possible shot at survival**.

Distributing over **\$68 million** to families over its lifetime with the help of compassionate donors, NCCS is able to take a **"no matter what"** approach, creating a clear path through the labyrinth of childhood cancer and survivorship to help families stay strong, stay positive and stay together.

**Because no family should go through childhood cancer alone.™**

## What We Do

- **In the United States**

Our **Family Support Program**, **Transportation Assistance Fund** and **Emergency Assistance Fund** provide emotional and financial support to families throughout the United States during their child's cancer treatment. By eliminating some of the psychological and financial hardships associated with cancer, families can stay focused on the one most important thing – getting their child well again.

The **Beyond the Cure** survivorship program prepares survivors and their families for life after cancer. Our **Late Effects After Treatment Tool (LEATT)** provides survivors with a private, personalized assessment of potential late effects based on their diagnosis and treatment. In addition, Beyond the Cure awards 58 college scholarships per year to childhood cancer survivors, distributes free educational materials and sponsors survivorship conferences at treatment centers across the country.

- **Around the World**

The **Global Outreach Program** coordinates worldwide distribution of donated pharmaceuticals and medical supplies to pediatric oncology treatment centers in less-developed countries throughout the world. The program is dedicated to addressing the critical effects of inadequate and nonexistent medical care for thousands of children with cancer worldwide.

## FY2020 Summary

During the past fiscal year (10/01/19–09/30/20) the NCCS:

- Distributed \$857,216 in financial assistance to 1,945 families battling childhood cancer
- Referrals for assistance were made by 410 hospital social workers or medical professionals from 192 institutions across the country
- Provided 2,663 referrals to other resources to address the needs of the families we serve
- Awarded (58) college scholarships totaling \$203,000 to childhood cancer survivors
- Sponsored one survivorship conference (Additional conferences were cancelled due to COVID-19 pandemic)
- Distributed 2,159 free educational publications
- Provided 404 personalized late effects assessments to families and survivors from the Late Effects After Treatment Tool (LEATT)
- Distributed over \$23 million in donated pharmaceuticals & medical supplies to pediatric oncology treatment centers outside of the United States
